The use of this Table is this; if thou wouldst know what the Interest of 100 and 5 pounds is, for 9 Month, at 6 per Cent. then in the first Column find out 100 at the foot of the Column, and right against it under the title 9 Mon. (which is the fifth Column) here you shall find 4 l. 10 s. and against the number 5 l. you shall find 4 s. 6 d. so that the Interest of 105 l. for 9 Mon. cometh to 4 l. 14 s. 6 d. the same of all the rest.

This is the season for good Husbands to lop and prune superfluous Branches from Fruit-trees; Uncover their Roots, set all kinde of Quicksets and Fruit-trees in the New of the Moon. Be sure the Wind be not North nor East; and set the same sides to the South and West, which grew at the first. Set Beans, Pease, and Parsnips. The weather mild and Moon decreasing, dig Gardens; drench weak and sick Cattle, Kine; with Verjuice, Horses with water and ground Malt, sodden with a little Bran.

In this Month let not Blood, nor use Phylick, unless necessity constrain thee; beware of taking cold, for Rhumes and Flegme do much increase this Moneth: Its hurtful to fast long, to drink Whitewine fasting is good; use Meats that are moderately hot, for the best Phylick is warm diet, warm cloaths, good fires, and a merry honest Wife.

This moneth set, cut, and lay Quicksets and Roses, as all other Plants. Set and plant Vines, Hops, and all fruit that grows on Bushes. Sow Pease, Beans, and Onions; furnish your Gardens with Sallads and Pot-herbs for Summer. Prune and trim all sorts of Fruit-trees from Moss, Canker, & superfluous Branches. Remove Grafts or yong Trees, in the last quarter, the Moon being in *Aries*, *Libra*, or *Scorpio*.

If necessity urge, you may let Blood, but be sparing in Physick, and be sure when a warm day comes, to prevent taking of cold, through carelesness; for the warm air this moneth is not lasting, but oft deceives us to our prejudice.

In this moneth slimy fish, milk, and the like, that do opilate, and stop the Liver and the Veins, and thicken the blood, are to be eschewed as enemies to health.

This Moneth commands the provident Housewife, and the prudent Artist, to set their Stills on work. In the beginning of the moneth sow and set those tender Summer Herbs that would not endure the former cold. Weed your Hop Gardens, cut off superfluous Branches, Moss Trees and Gardens, and weed Corn; rise early, and walk the fields and gardens.

Now every Garden and Hedg affords thee Food and Physick. Rise early, walk the Fields by running streams, the North and West sides. Sage and Sweet-butter, an excellent breakfast. Clarified Whay with Sage, Scurvy-Grass Ale and Wormwood Beer, are wholesome Drinks. Green Whay excellent against Choler: eat and drink betimes in the morning, abstain from meats that are hot in nature, and salt in

At the Full of the Moon, this Moneth and next, gather your Herbs to keep dry for the whole year. Set Rosemary and Gilliflowers, sow Lettice and Radish three or four days after the Full, and they will not run to Seed. Shear your Sheep the Moon increasing. Take heed of cutting herbs or flowers with knife, but rather gather them with your fingers.

Let honest moderate Labor and Exercise procure your Sweat. Thin and light Diet, and chaste Thoughts, tend to health. Lie not unadvisedly on the Ground, or overhastily drink. Distilling of Roses, and making of Surrups and Conserves are now in prime: use a light and thin diet, for the stomach is weaker then in the former moneths; clarified Whey boiled with cold herbs very holsome.

Get Rue, Wormwood, and Gall, to strew on your Flores to destroy Fleas. At the Full Moon gather Flowers and Seeds, dry your Flowers rather in the shade, than in the Sun, which too much exhaleth their vertue, but to avoid corruption, let the Suns heat a little visit them.

Beware of violent heat, and sudden cold, which are the great distempers of this moneth, and produce pestilential diseases: Forbear superfluous drinking, but eat heartily: Use cold herbs and meats, abstain from physick Now the rivers are more wholsome then the baths. In time of Pestilence keep your chamber-windows shut till the Sun have force of shining: perfume your chamber every morning with tarre upon a Chafing-dish of coles: Use *Carduus Benedictus* boyled and drank fasting.

Now with thankfulness reap your desired Harvest. Sow Winter Herbs in the New of the Moon. Esteem fair weather as precious, and mispend it not. Gather Garden Seeds near the Full. Use moderate diet, forbear to sleep presently after meat. Take heed of sudden cold after heat.

Beware of Physick and Bloodletting in the Dog-days, if the Air be hot; otherwise, if occasion require, you may safely make use thereof. Now moderate Dyet is best, beware of surfeits, heats and colds, for plurisies are ingendred thereby. Use not to sleep much, especially in the after noon, for that brings Opilations, Headach, Agues, and Cathars; and all noxious distempers of the same kind.

The beginning of this Month, and the end of the former, gather Hops, their complexion being brown, and the weather fair, and no dew on the ground. Kill Bees, make Verjuice, remove and set all slips of Flowers, between the two Lady days; remove Trees from *September* till *February*, especially in the new of the Moon: The weather warm, and the Wind South or West, cut Quickſets, gather ripe Fruit. Sow Wheat and Rie, Winter Parſnips and Carrots; and ſet Roſes, Strawberries and Barberries.

Now as the year declines, provide your Winter Garments, hang them on loosly, to prevent that you might after repent of: Good for Phyſick and Phlebotomy.

Sow Wheat and Rie, remove young Plants and Trees about the New Moon, observing this as a seasonable Secret, that in setting, you carefully place that side to the South and West, which were so before you took up the plant; otherwise the cold kills it. Gather your remaining Winter fruit, set all kindes of Nuts and Acorns, and cut Rose-trees but once in two years, if you intend to have store of Roses.

The Garments you last month hung on your backs in jest, now Button them close in good earnest; Cloath you now for prevention, for the Cold comes insensibly, and Fogs oftimes beget a whole Winters cold. Consult with your Tailors, as well as Physicians.

Set Crabtree stocks to graft on. In the old of the Moon, set Peaſe and Beans, and ſow Parſnips and Carrots. Trench Gardens with Dung, uncover the Roots of your Apple-trees, and ſo let them remain till *March*. Kill Swine in or near the Full of the Moon, and the fleſh will the better prove in boiling.

The beſt Phyſick this moneth, is good exerciſe, warmth, and wholſome meat and drink: but if any diſtemper afflict the body, finiſh your phyſick this moneth, and ſo reſt till *March*, unleſs neceſſity urge. Uſe good meat and wholſome drinks to nouriſh the blood. Be ſure to go dry of your feet; for if you go wet of your feet (unleſs it be thoſe always uſe to it) be certain to be troubled with Rheum & cold, and other inconveniencies attending.

In the last quarter of the Moon this moneth and the next, are the best times to fell Timber: Let Fowlers minde their Game. Cover all your best Flowers and Herbs from cold and storms, with rotten Horse-dung: Look well to thy Cattle, Blood Horses. Let a warm fire, and a cup of *Nectar* be thy Bath; the Kitchin thy Apothecaries shop, Hot meats and broths thy Physick, and a well spred Table the proof of thy Charity to thy poor Neighbors, to whom this advice is seasonable;

If thou be poor, and canst not feast at all,
Thank God for such as thee to feasting call.

The best Physick is as before, a merry honest heart, and the exercise of Charity among thy poor Neighbors.

The use of this Table, with a Caution.

The bar observe in the fifth Column of the Almanack the hours and minutes of full-Sea at London Bridge over against each several day of the Moneth, from which time there noted, add or substract the hours and minutes as this Table above doth point, and the total of the one, or remainder of the other shall be the time of the full-Sea at any of these Ports aforesaid, saving the Antisipation or protraction of time, which by the winds, Land-floods, or some latitude may be caused, which may be an hour, or sometimes more or less error, according to their size and quantity; a thing very remarkable of Seamen when they pass by any Sands, over any Bar, Haven, or such like.
